## 2300VT - US

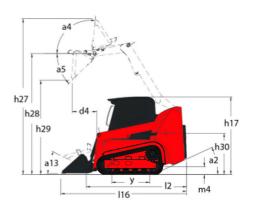

|  | 2300VT - US Created on March 29, 2023 at 3 | 1:4/:32 PM UT |
|--|--|---------------|
| Capacities   | Imperial                                   |               |
| Operating Capacity At 50% Tipping Load               | 3285 lb                                    |               |
| Rated Operating Capacity with Optional Counterweight | 3437 lb                                    |               |
| Operating Weight                                     | 9251 lb                                    |               |
| Unladen weight                                       | 8415 lb                                    |               |
| Weight and dimensions                                |  |               |
| Operating Weight - Approximate                       | 9251 lb                                    |               |
| Overall Operating Height - Fully Raised              | h27 159 in                                 |               |
| Height to Hinge Pin – Fully Raised                   | h28 121 in                                 |               |
| Overall Height to Top of ROPS                        | h17 81 in                                  |               |
| Dump angle at full height                            | a5 42°                                     |               |
| Dump height  | h29 91 in                                  |               |
| Overall length with bucket                           | l16 141 in                                 |               |
| Dump reach - Full height                             | r6 36 in                                   |               |
| Rollback Angle at Full Height                        | a4 92 °                                    |               |
| Seat to ground height                                | h30 38 in                                  |               |
| Overall width less bucket                            | b1 69 in                                   |               |
| Bucket Width   | e1 70 in                                   |               |
| Ground clearance                                     | m4 8 in                                    |               |
| Overall length - Less Bucket                         | l2 110 in                                  |               |
| Clearance Radius - Front with Bucket                 | b18 88 in                                  |               |
| Clearance Circle - Front without Bucket              | b19 54 in                                  |               |
| Clearance Circle - Rear                              | wa1 64 in                                  |               |
| Performances   |  |               |
| Travel Speed with Two-Speed Option - Maximum         | 10 mi/h                                    |               |
| Travel speed (unladen)                               | 6 mi/h                                     |               |
| Wheels   |  |               |
| Transmission type                                    | Hydrostatic                                |               |
| Engine   |  |               |
| Engine brand   | Yanmar                                     |               |
| Engine model   | 4TNV98CT-XNG                               | L             |
| Engine norm  | Tier 4                                     |               |
| Gross Power (kW)                                     | 54 kW                                      |               |
| Net Power (kW)                                       | 53 kW                                      |               |
| Max. torque / Engine rotation                        | 217 ft/lbs / 1800                          | rpm           |
| Number of cylinders                                  | 4  | •             |
| Engine cooling system                                | Water                                      |               |
| Battery  | 12 V                                       |               |
| Alternator - Ampere                                  | 100 A                                      |               |
| Starter (kW)   | 3 kW                                       |               |
| Hydraulics   |  |               |
| Standard flow - Auxiliary hydraulics                 | 23 US gpm                                  |               |
| Auxiliary Hydraulic Pressure                         | 3475 PSI                                   |               |
| High-Flow Auxiliary Hydraulics – Option              | 30 US gpm                                  |               |
| High-Flow Auxiliary Hydraulics Pressure – Option     | 3325 PSI                                   |               |
| Tank capacities                                      |  |               |
| Fuel tank  | 39 US gal                                  |               |
|  |  |               |
| Displacement   | 0.87 US gal                                |               |
